Message from CEO

“May the flowers remind us why the rain was so necessary” - Oku

With an optimistic heart, we began our 2nd year; focusing on refining successful projects to achieve our mission whilst looking at operational expansion and sustainability. COVID-19 was an unexpected hit to our major activities in the middle of our project year, however, with resilience and sheer determination we bounced back stronger than the start of the year. We reflected on innovative ways to reach youths in our FounORock program and saw over 1000 viewers for the faith-based online show. We used the budget from cancelled projects to feed over 16 families during the lockdown period. Our annual House of Grace Program fed nearly 200 families in 6 communities and provided medical supplies to a health facility in Dakwa.

Over 8000 people applied for our Full National Scholarship and we began our Widows entrepreneurship program with 10 successful business owners looking to digitise their businesses. Despite increasing unemployment afflicting the global landscape we welcomed 3 full-term permanent employees this year and over 30 volunteers.

As we move into our 3rd year, we should be looking at exponential operational growth and reaching more Nigerian States with our mission. We have a strong quality driven focus and passionate employees/volunteers so we will be looking to strengthen our revenue generating capacity whilst focusing on a sustainable future. We pray for success ahead.

Education

**Poverty &
Inequity
Alleviation**

**Health
Services**

Our History

The Alex and Grace Izinyon Foundation (AGIF) was founded by Dr. Alex Aigbe Izinyon (SAN OFR) and Barr. Mrs. Grace Oluwayemisi Izinyon (in remembrance).

The Foundation reflects the benevolence of Dr Alex and Mrs Grace Izinyon by promoting the well-being of the disadvantaged through our four pillars: health services, education, youth empowerment and poverty & inequity alleviation. Our founders were committed to helping the disadvantaged in their communities. Before the organisation was established, they reached many lives. Several of which are unaccounted for but included training and sponsoring several candidates through secondary and tertiary education, outreaches in Bauchi, Kogi, Abuja (Nigeria) and England (UK), reconstructing maternity homes and many more.

AGIF was officially launched in October 2018 and within the first year of launch, empowered 139 youths, provided access to education for 87 individuals, reached 1362 individuals through outreaches and provided free medical and health services to 1332 persons in Nigeria. It is the firm belief of AGIF that the well-being of every life matters, is valuable and with minimal resources every human being can thrive and achieve purpose when stirred in the right direction.

AGIF aims to be a leading nonprofit in Africa working on building a world without disadvantaged people around us, where every life is valuable.

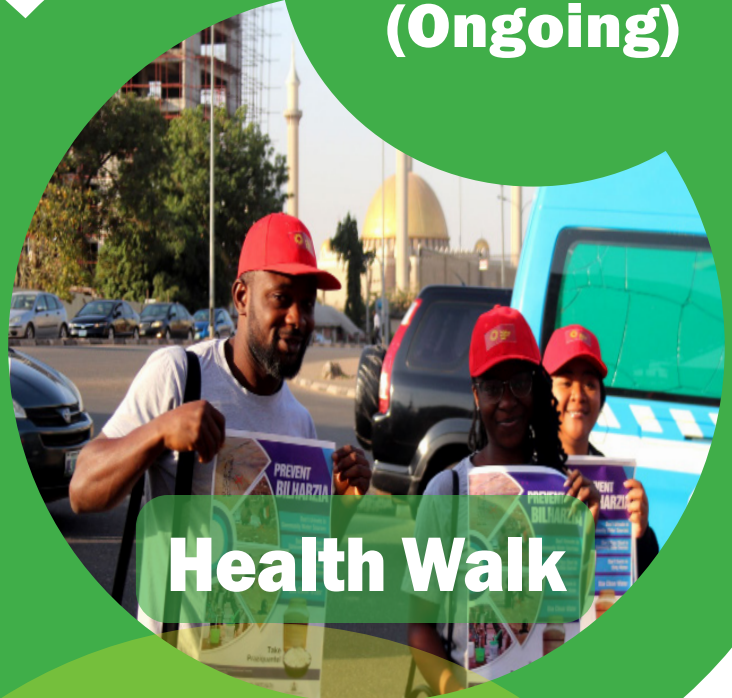

Our Purpose

To promote the wellbeing of the disadvantaged around us through Education, Health Services, Youth Empowerment and Poverty & Inequity alleviation

COV

IMPACT OF COVID-19

The AGIF Year 2 has been a truly unprecedented year due to the unforeseen challenges the Covid-19 public health crisis brought with it.

February 2020, the global COVID-19 pandemic was first reported in Nigeria. In March 2020, the foundation operations from the office closed down in compliance with the prevention measures from the Nigerian government, this affected the project calendar of the Foundation and the planned projects for the project year.

However, thanks to the amazing team of AGIF, we were able to come up with strategies to combat the impact of the lockdown on some projects enabling us reach and promote the lives of the disadvantaged in our society, as is our mission.

House of Grace

**Wi-Prenuer Initiative
(Ongoing)**

**COVID-19 Inter-
vention**

**AGIF Full National
Scholarship**

IMPACT OF AGIF PROJECTS IN 2019/2020:

73

INDIGENTS WERE GIVEN ACCESS TO FREE MEDICAL SERVICES INCLUDING CHECKING VITAL SIGNS, CONSULTATIONS AND MALARIA TREATMENT

3

BENEFICIARIES ARE CURRENTLY UNDERGOING MEDICAL PROCEDURES AND TREATMENTS FOR THEIR RESPECTIVE MEDICAL CONDITIONS, WITH 1 HAVING ALREADY COMPLETED HIS TREATMENT

Impact Stories

“Considering the fact that my mum is a low income earner and I lost my dad, I couldn’t have imagined being able to pay my tuition by myself. So I was fortunate to be awarded with the AGIF full scholarship to study business administration at Ambrose Alli University Ekpoma. My tuition fee and all other expenses were covered by AGIF and in 2019, I became a graduate all thanks to AGIF.

Now looking back, I couldn’t have imagined myself being a graduate at this point but because of what the foundation has done, I can now say I was able to complete my tertiary education without any fear of paying my tuition fees and all other expenses.”

Momoh David Eshiofune, a grateful beneficiary of the AGIF Full Scholarship

One evening, 3 years ago precisely in November 2017, I was in my shop when I got shot on my right leg by armed robbers. I immediately started receiving treatment at the hospital but after a couple of weeks of treatment, I could still not feel the leg and it felt lifeless. I complained to the doctor who immediately sent me for assessment which revealed that my nerves, vessels, bones and soft tissue of my injured limb cannot be restored with treatment and advised that amputation was necessary to save my life. I was rushed to the ICU and the surgery was carried out and that was how I became an amputee with no hope of ever walking without the aid of crutches. I could not do business and so could not even afford advanced treatment or a prosthetics leg.

Before AGIF intervention I had never accessed any health support program similar to the FAHP program from any NGO, private firm or health insurance organisation. With frequent communication with the AGIF team, I got to Abuja and the team received me and I was immediately taken to the Aderonke Rehabilitation Network office where I met with the physiotherapist who measured and casted my stump for the preparation of my customized prosthetics leg. It felt like a dream, after that the team took me to the hotel where I was lodged for the entire 2 weeks of the treatment.

The process was an experience that I will be forever grateful for, from the bottom of my heart I sincerely want to appreciate the good work that the foundation is doing especially how they have touched my life. Now I can discard my crutches and in a couple of weeks I will no longer need a walking stick to aid my walking. Thank you to AGIF, God bless you.”

”Ugwu Chibuike From Enugu State, Trader.

Accounting Preliminary Remarks

- The financial statement provided here is not certified by a trustee/auditor, however, it is a summary of accounts by the financial department pending the receipt of the audited financial report.
- AGIF's fiscal year starts on 1st November and ends 31st October of each reporting year.
- For the period considered, all donations were non-dedicated and therefore freely available for use at the management's discretion. Also, in-kind donations were received however, donations presented in the report only represent monetary donations.
- There are no recurring donations and no contributions from the government/public sector.
- Some projects are still ongoing with part expenses incurred in the reporting fiscal year represented.

Together we can do so much more. You can make an impact in the lives of disadvantaged in our communities if you:
